24th July 2024

Dear ██████████

Area Plan for the North and West - Appeals against site exclusion GR017 & GR026

I have been asked to write on behalf of the Commissioners in regard to the Inquiry session which takes place this Friday the 26th July 2024.

The Commissioners are advised that the decision to exclude sites GR017 & GR026 from inclusion in the Draft Area Plan will be discussed during this session as part of the appeals process on the content of the Draft Plan.

Unfortunately, the Commissioners are unable to attend this session, but wish to record in advance their opposition to the inclusion of sites GR017 & GR026 in any future form of the Area Plan.

This reflects their view that sporadic and isolated development in the countryside is inappropriate and in this particular case would be detrimental to the rural character of the area.

The Commissioners thank you in anticipation of considering their view in relation to Sites GR017 & GR026.

Yours sincerely
